Holy Cow
brgr´s & stuff

Menu

Holy Cow started in 2013 from a simple idea: two things we genuinely love, burgers and beer. What began as a passion project quickly became a place where people could relax, eat well, and feel at home.
More than just a restaurant, we wanted Holy Cow to be a place for everyday moments, after a day at Liseberg, a hockey game, dinner with friends, or simply a great burger and cold beer. Over the years, we've become part of countless memories, from first dates to family dinners and late nights with friends.
We believe great food doesn't have to be complicated, just honest ingredients, properly cooked burgers, good drinks, good music, and a welcoming atmosphere for everyone.
"We are made of good stock." Not just in what we serve, but in the people, atmosphere, and memories we create every day.
